**Report on the 50<sup>th</sup> Foundation Day Lecture**

**Monday, 16<sup>th</sup> July, 2018**

**4.45 p.m.**

On 16<sup>th</sup> July, 2018, the College celebrated its 50<sup>th</sup> Foundation Day. On this memorable occasion, the college stepped into its Golden Jubilee Year while reinforcing its commitment to the recognition of scholarly contributions and dissemination of knowledge among students and teachers. In keeping with tradition, the event comprised of a lecture by the Scholar of the Year Awardee and conferment of the award thereafter.

The Foundation Day lecture, a significant event in the academic calendar of the college was held at the Neville Wadia Hall on 16<sup>th</sup> July, 2018. Each year, the college confers the prestigious "Scholar of the Year Award" on a renowned scholar in recognition of his or her scholarly contribution and quest for academic excellence. The award for the year 2018-19 was conferred on Dr. Isher Judge Ahluwalia, Chairperson, Board of Governors, the Indian Council for Research on International Economic Relations (ICRIER). A recipient of the Padma Bhushan Award in 2009 for her services in the field of education and literature, Dr Ahluwalia was Chairperson of the High Powered Expert Committee on Urban Infrastructure and Services during 2008-11, which submitted its Report to the Government of India in March 2011.

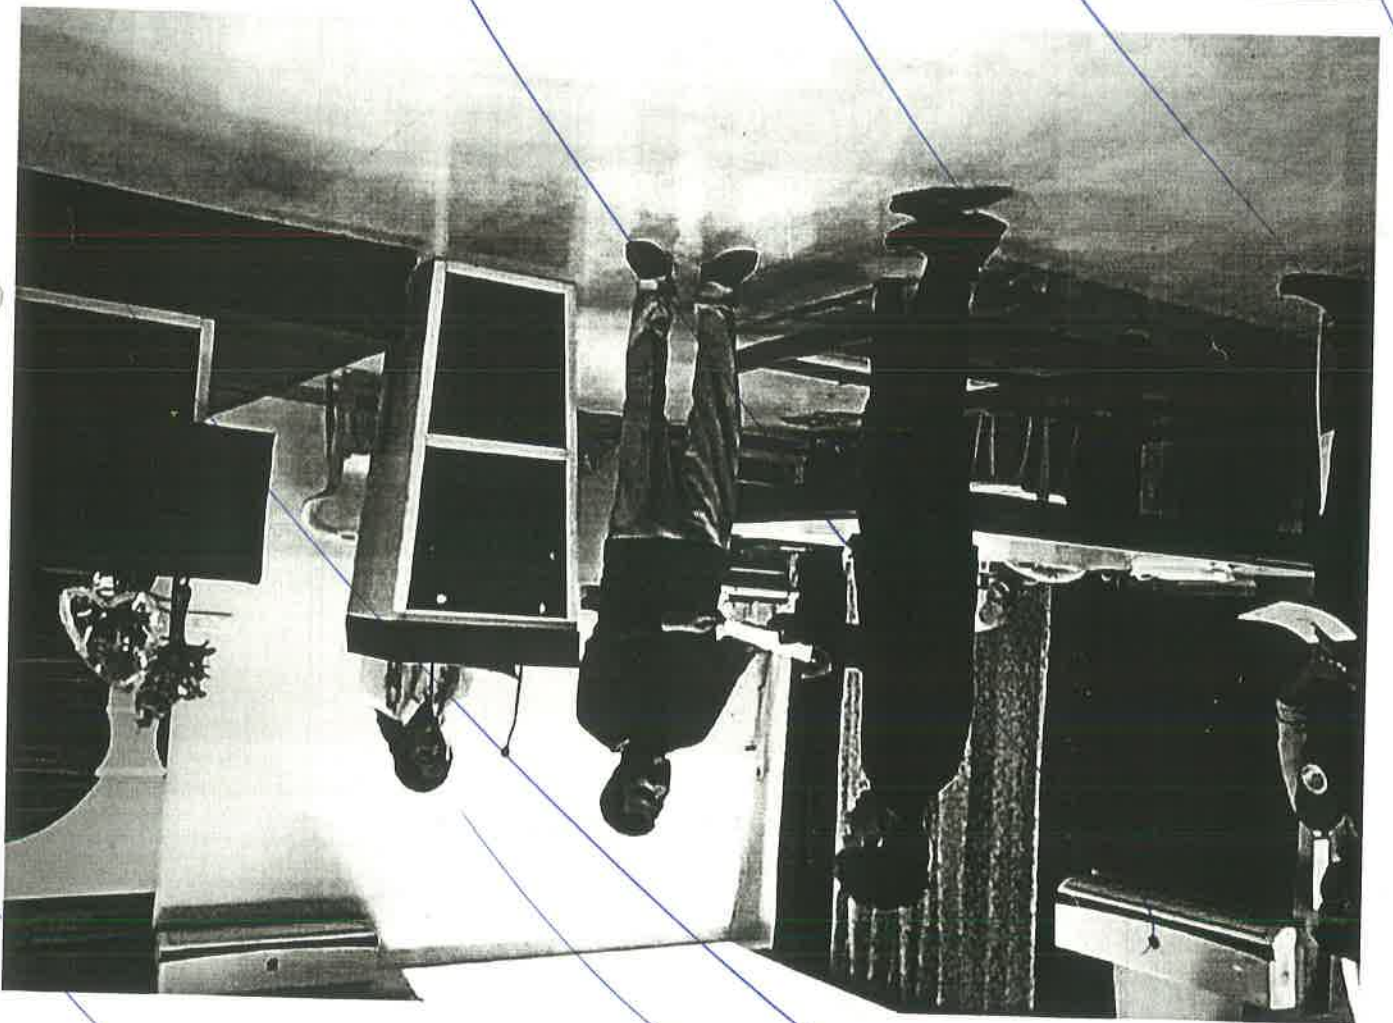

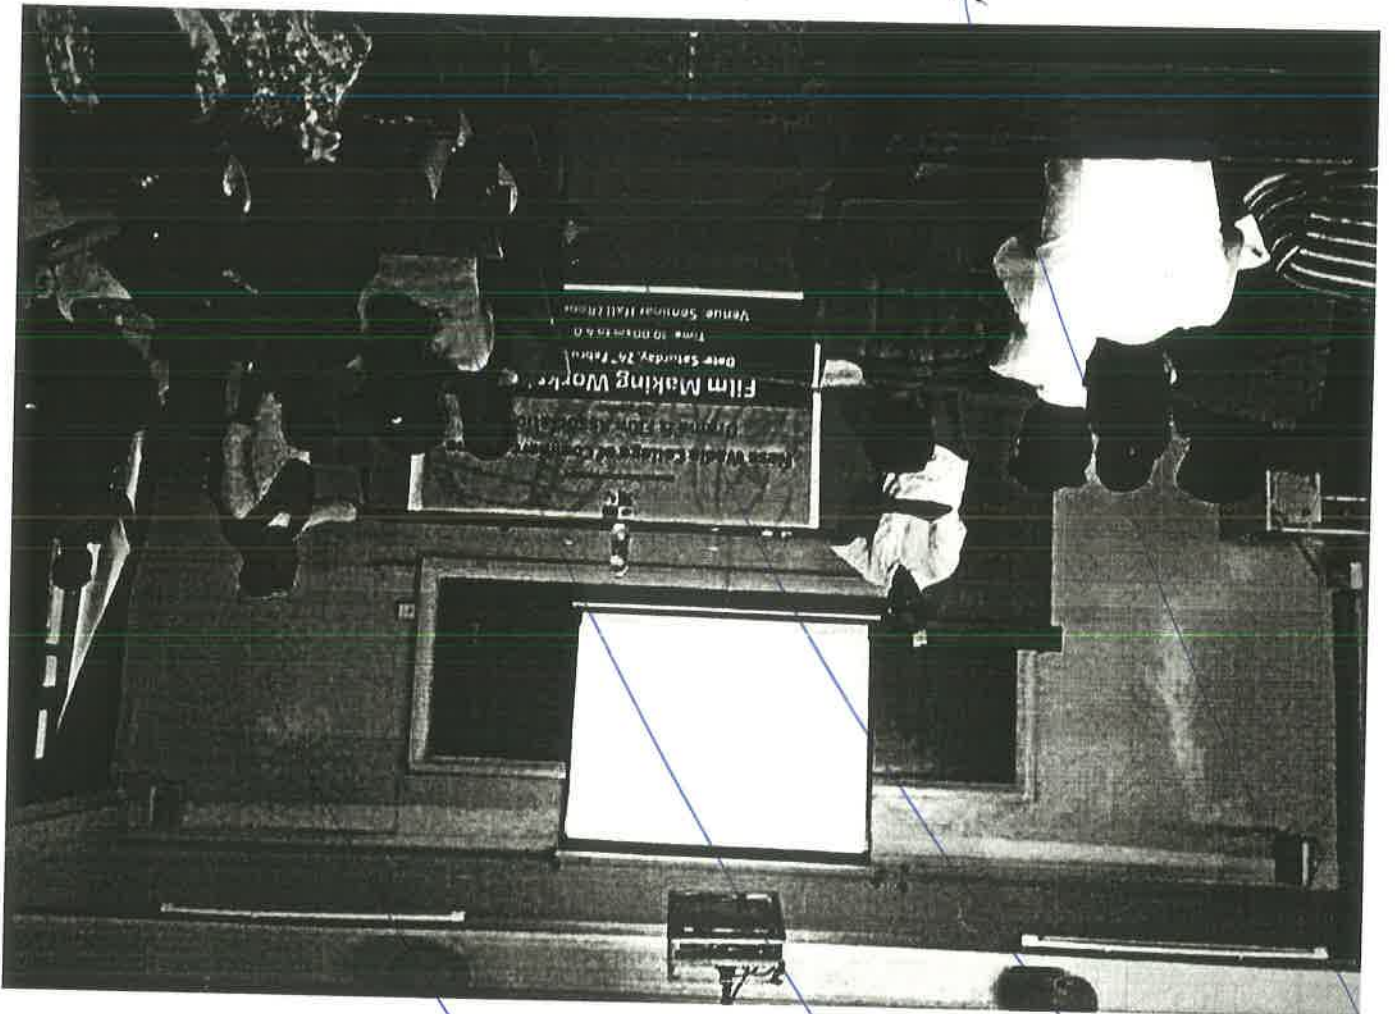

The event began with an opening address by Prin. Professor Girija Shankar who gave the audience an insight in to the history of the college together with an encapsulation of some milestones along the way. This was followed by an introduction of Dr. Ahluwalia by Dr. Prakash Chaudhari, Vice-Principal and Head, Department of Business Laws and her felicitation by Dr. M. S. Wadia, Dean, Academic Council, Modern Education Society, who presented her with a bouquet of flowers and a memento.

The topic for the Foundation Day Lecture by Dr. Ahluwalia was "India's Urbanisation-Challenges and Opportunities".

Dr. Ahluwalia began by thanking the management and College authorities for inviting her to speak on this occasion and for choosing to honour her with the Scholar of the Year Award. She started off her lecture by talking about the transition in her career which came in the year 2006. Up until then, she had carried out empirical research in the arena of industrial development in the Indian economy. It was only when she took on the role of Vice Chairperson the Punjab State Planning Board that she saw things from a state perspective. After working in the field of industrial development for since 1979, it was in 2008, that she got the opportunity to work on the subject of urbanization, which until then was completely new to her. It involved learning from scratch.

She said that, India is one of the fastest growing economies in the world and has been so for the past two decades. As urbanization gathers momentum, industry and services are concentrated in cities. For urbanization to take place we expect cities to become engines of growth and attract investment. This does not mean that rural and agricultural development is not important. Rural and urban development has to be planned together. One cannot be achieved at the cost of another.

Dr. Ahluwalia further stated that, a handful of cities in India are driving urbanization. However, while they have been growing, these cities did not have planned urbanization and lacked infrastructure and public services. The problems caused by this are compounded by the silence of urban citizens who when faced with poor public services, do not raise their voices but instead, start looking for a private solution. For instance, when we don't have adequate water supply, we dig bore leading to the depletion of ground water levels. In Punjab, Rajasthan and Haryana, water tables are declining at an alarming rate. Unlike Pune, most cities in India have not thought of solid waste management and do not even segregate dry and wet garbage. We have paid no attention to treating waste and continue to contaminate our water sources by dumping waste. Problems are further compounded by the opportunistic attitude of people at the helm of affairs at various levels. For instance, as most central government schemes are for *Panchayats*, village *panchayats* are reluctant to take on the status of towns and have municipal corporations.

Thus, the country's urban transformation presents several challenges and opportunities, ranging from environmental sustainability to adequate transportation and infrastructure. Innovative policy responses such as effective financing, reliable service delivery, and responsive governance are the need of the hour.

Dr. Ahluwalia's lecture was followed by a lively question-answer session. While answering these questions, she made some pertinent points which are summarized as follows:

Vision, visualization and voice of the people are necessary to face the challenges of urbanization. Money is not the constraint; it is governance that is required to make a difference. In order to march forward, we must be able to live with certain inequality. The state must be made accountable so that inequalities do not grow. We must take a larger view of things, water and sanitation must be for everyone and not something that is available to a few. If not, public health is adversely affected, impacting everyone. The problem of housing must be addressed but free housing is not the solution. Sustainability has to be mainstreamed in to development.

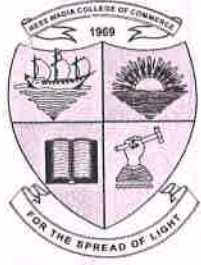

Dr. Ahluwalia's enlightening lecture and an interactive question-answer session was followed by the vote of thanks which was presented by Dr. Deepa Dani, Assistant Professor, Ness Wadia College of Commerce.

The Foundation Day Lecture was followed by the Scholar of the Year Award Program at Sir Dorabjee Tata Assembly Hall.
